I submitted my comments on the Draft Local Plan yesterday.

I know you will have received a great deal of responses. Many, including mine, will include a great deal of narrative with some questions hidden within which will take some time to go through and analyse.

In the meantime, a detail regarding Slimbridge Parish that I did not mention in my review concerns the proposed realignment of the settlement boundary at Barton Field, Cambridge. As I have mentioned previously, I do not agree that this boundary should be realigned at this time. The mixed development there was approved as an exception site and it should remain as such at least for a reasonable period of time. It was highly controversial when approved. The Parish were not against development but felt their views were completely ignored by SDC in dogmatic pursuit of permission. It was initially refused at DCC then, due to some work behind the scenes, managed to return to DCC the following month without any change to be approved on the then DCC Chair casting vote. It was all an unusual process that might now be challenged in similar circumstances. The Parish Council considered they had been completely bypassed and changing the status now would simply confirm their understanding.

Please could you consider these comments at part of the review process.

Regards.
