If you could let us know the land uses you are proposing at the very least we can then do an initial assessment of capacity. If you have a clear view of numbers then include it, otherwise you can always come back to us at a later date.

[REDACTED]. Is it necessary to include an estimate of potential housing numbers at this stage?

Further to the below we potentially have another site suitable for housing (say 400 units) which has not been previously submitted. If we wish to put this site forward for housing is there a mechanism to do so?

Many thanks.

The Issues and Options Paper was primarily aimed at identifying any future potential sites on the edge of settlements that are currently within the countryside and/or not currently acceptable locations for (housing) development. As you know, the New Lawns site is within the existing settlement and therefore, subject to complying with open space policy requirements, could be suitable for redevelopment for housing under the current Local Plan. If the Local Plan Review determines that the appropriate strategy for Nailsworth is to support redevelopment of existing land rather than to support new urban extensions, then we will need to explore whether the New Lawns site should be allocated within the Plan (subject to suitable replacement open space proposals). Happy to discuss this and any other sites that you are currently promoting in terms of the Local Plan Review.

Hi [REDACTED]

I thought it was included as another option. You would need to talk to [REDACTED] in our Policy team.

Regards,

Hi [REDACTED],

I have just been looking at the Local Plan Review Issues and Options Paper and noticed that the New Lawn site has not been included, despite it being identified as being suitable. Who is best in Policy for me to discuss this with?

Many thanks
