I'm just writing to give my strongest objections regarding the canal proposal between Brimscombe and Sapperton

This will destroy a wildlife corridor. The proposal seems difficult to get clarity on, using a lot of clearance with steel and concrete

Just because there was a canal there it doesn't mean we should restore it. Already the redevelopment of Brimscombe port has removed two great facilities for our community and population, especially our youth.

I strongly object against this proposal and feel it's a vanity project
