Dear to who it may concern,

If you go ahead with the plans to build the disastrous and the horrendous overbuilding of 12,800 houses. This is pathetic. You are literally going to destroy the countryside and our environment which we the young will suffer as a result of your selfishness. A good example is your be removing trees which gives us oxygen as we know takes in CO2 emissions.

We will end up like China a country which is heavily built up with high doses of pollution. All your thinking about is money and financial gain. Well it's not always about money. For too long you have took advantage over our precious land it's about time we stand up for it. Do you want to turn like Gloucester? Gloucester is a good example as heavily built up. Not forgetting the maintenance is horrendous. There's glass and rubbish everywhere and they don't seem to care.

Seriously, I'm advising you to reject the plans as will be damaging to our health. I live in Stroud constituency but goes to Gloucester college and I can tell you the amount of pollution and all the gases is disgusting and alarming. There's no fresh air apart from the countryside and fields like sharpness and so on.

You can go ahead but then people will feel betrayed and they could possibly take action such as court. As we've seen loads of times it could be protests etc.

Please do not go ahead it's already damaged community's here in Hardwicke! So, there are houses like the ones where they are filming they could re do them up as we don't care about tv filming I these houses and there's derelict houses which they could use as long as not grade listed.

There's plenty of brownfield sites which we can develop on. Just think about the future generations such as your grandchildren. Do you want to wear mouth masks like China taking all the trees and land away!

Your sincerely,

[REDACTED]
