

I write again to object to any development of PS29 to the South East of Dursley. The traffic at peak times is at a stand-still trying to get through Dursley. This development will put more pressure on existing roads.

I feel Stroud District Council must have a duty of care to existing residents in Dursley. More + more development is eroding our quality of life. There is a definite lack of infra-structure in place to cope with new developments.

What is being done for

the existing residents of  
Dursley + Cam. We have to  
cope with all these problems.  
We should get far more  
support from Stroud Council.

yours
