I have tried and failed to comment using the online form. (I only have my phone to do this with.) I am extremely concerned about the planned development on land behind Tesco. This is a real haven for wildlife and local walkers and people looking to exercise.

Cam is a village. To plan so many more houses without considering schools, doctors or dentists is ridiculous. We also need to deal with local anti social behaviour and drug problems before adding to the density of housing.

Traffic is a huge consideration too. Plus parking.

Please reconsider the wanton destruction of green spaces and ruining of our lovely village.
