

STROUD DISTRICT COUNCIL
RECEIVED

16 JAN 2019

Dear Sir / Madam
DEVELOPMENT SERVICES

I'm writing on behalf of
myself [REDACTED] and my partner [REDACTED].

The online survey is very confusing hence writing on paper, but I imagine it was done that way for a good reason!!

The survey in referring to us Sharpness Development where you would like to build up to 5000 houses which is ludicrous.

I have lived in Berkeley / Sharpness all my life and don't wish to live in a town which is what it will become if you go ahead with these houses.

Berkeley Vale School closed in 2011 in which my sons then had to change schools to KLB - which was near to the limit then on how many children that they could take.

Basically the school closed, then Berkeley Hospital the Bank and trying to get an appointment at the surgery now is terrible, I could go on.

The Bypass never got finished so the size and scale of this plan for Sharpness is madness as the roads won't be able to take the extra thousands of cars travelling on them everyday.

The junction at Falford Junction is bad enough in the mornings now, and I like living where we can still see green fields

if the council get there way there will be no more green fields which is a sad state of affairs.

Maybe a couple of hundred but thousands end spoiling what we've got is awful.

Yours
