1. Background

- 1.1 All district councils in Gloucestershire undertake employment land availability (ELA) surveys to monitor the supply of employment land. This monitoring work is carried out annually and is essential for the evidence base supporting the adopted Local Plan.
- 1.2 This ELA survey covers the period 1st April 2019 to 31st March 2020.
- 1.3 The adopted Local Plan covers the period 2006 to 2031. An employment land requirement for “B” uses over the plan period has been set at 58 hectares. Therefore, Table 1 sets out the employment land supply for the plan period and compares supply with this requirement.

2. Survey Methodology

- 2.1 This report involved researching all planning permissions for employment use gained between 1st April 2019 and 31st March 2020.
- 2.2 This document contains information on committed and completed employment land gain and loss in the Stroud District at 31 March 2020. Due to the Covid-19 pandemic, and restrictions on site visits during lockdown, we have limited the reporting to B use employment only this year. This will be reassessed in 2020/2021.
- 2.3 To reduce the number of site visits, data on commencement of development has been obtained from Community Infrastructure Levy (CIL), Development Control, Building Control, where possible, and also direct from the applicant.
- 2.4 Sites which have received planning permission but have not yet been implemented were investigated to ascertain whether the permissions were still valid or lapsed.
- 2.5 Those sites which had previously been in employment use but have since been redeveloped for other uses or demolished, are identified within the ‘losses’ section of the report. Potential losses are also indicated where planning consents have been given that will involve loss of employment land, but as yet have not been fully implemented.
- 2.6 While accurate at the time of publication, this report is subject to change due to continuing monitoring.

3. Summary of survey results

- 3.1 The amount of land developed for 'B' use employment between 2006 and 31 March 2020 was 32.30 hectares (Tables 2a and 2b). In terms of land with planning permission for 'B' use employment, this figure is now 50.78 hectares (Tables 3a & 3b).
- 3.2 With regard to losses, the amount of 'B' use employment land lost to other uses between 2006 and 31 March 2020 was 28.44 hectares (Table 4a & 4b).
- 3.3 Table 1 shows that, as at 31st March 2020 Stroud District has a net provision of employment land for "B" uses of about 63.04 hectares. This compares with a requirement of 58 hectares, indicating a current surplus of 5.04 hectares.
- 3.4 However, if potential losses (Tables 4c and 4d) are included there will be a requirement to find an additional 12.35ha of land by 2031.

Summary of Employment Land Supply:
