To Whom It May Concern,

I wish to express my formal opposition to the proposed development of 'Wisloe Green'.

I have lived next to the proposed development for 21 years, and work in the local area. Below I will outline my points of consideration;

Local people such as myself struggle to purchase housing due to the inflated costs, whilst developers generate obscene profits from essentially ruining the local area.

As can be observed, no regard goes into the planning process of these large developments. Examples of this include the recent developments at Box Road and Eastington, and the permission granted for a new forest green stadium. The effects of this are incredibly evident, most notably in the decimation of local infrastructure. The roads in the local area are already at breaking point, evidently running well above capacity; congested and in a terrible and dangerous state of disrepair. Thousands of homes have been built, yet not one new school, doctors surgery, post office has opened, to name a few examples of desirable/essential facilities for residents.

There are a variety of other reasons why I strongly oppose of this development, which I would be comfortable discussing at length if required.

Kind Regards,
