Dear Sirs,

Stroud Local Plan Review

It seems only like yesterday that I supported the local objection to building on the green-belt land adjacent to where I live. What has happened to democracy in this country? There seems to be no point in having a democratic decision. It seems that profit is all that matters. What has it to do with local electorate? Never mind what we think about or ~~what~~ what is best for Dursley.

Already we have traffic-jams in Dursley on a regular daily basis. Expanding towards Uley means that most of these new commuters will have to come back through Dursley or squeeze up through the narrow winding road, through Uley. We must protect our green-belt land for the sake of the wildlife, loss of recreational space, the quality of life and the reason we chose to come here to live.

Yours faithfully
