Ref the above . This is causing strong feelings particularly in the Glebe Estate. I live on the the entrance to the Glebe and i see the amount of traffic entering and coming out and it horrendous particularly at 4 to 6 pm. Yesterday I drove down to the Bulwarks, it was single file most of the way and to get to the entrance of the proposed site I had to twist and turn through the Bulwarks avoiding children playing and also past the play ground.

It is definitely not suitable as an access to Glebe Farm

I would suggest you drive to the Buklwarks instead of looking on Google Earth and then come and sit outside my bungalow and observe the traffic before any application is submitted ( I will give you a cup of coffee )
