Hi

I wish to register my objection to the proposed development in Wisloe Green.

As a resident of Slimbridge village, I am keen for us to continue to be a rural parish and did not choose to live here to live in a 'small town'. I am extremely concerned about the knock on effects of traffic both on the A38 and the A4135 in to Dursley as there does not appear to be a plan for transport infrastructure. There is already great chaos at key, busy times of the day (related to the primary school) and additional cars belonging to the Wisloe Green residents would just add to this.

I completely understand that there is a need to build new houses, but I firmly believe that this should not be at the expense of arable farming land in a rural farming community. It would seem much better to have smaller developments around multiple sites in the county which would be more in keeping with the rural environment in which we live and which would not have such a large impact on our smaller, local communities.

Kind regards
