**Categories:** Consultation response

Dear sir/madam,

I am writing to raise my concern about the plan to build 12,800 homes which will be devastating to the local community. The plan to build these homes will destroy the countryside and the greenbelt which should be protected. It will be devastating for the stroud community who will consequently lose their identity and this will impact future generations with devastating consequences. There are plenty of homes within local city areas which are empty and in need of regeneration. I cannot understand why the focus is not on regenerating and improving the quality of life of the inhabitants of these inner city areas which are in need of regeneration. It seems evident that this plan is about income generation with no consideration for the environment and the people who currently inhabit this area of the countryside.

I urge you to reconsider your decision.

Yours sincerely,
