I object to the development at Wisloe for the following reasons There are insufficient services for a large increase in local population. The volume of traffic on the A 38 is already very high at peak times, such a large increase in local population would inevitably lead to far more cars in the area, this coupled with the fact that the A 38 is effectively a relief road when (and there are lots) of problems on the M5, this is likely to result in gridlock. The noise levels from the M5 are very intrusive, even at the distance I live from the road >=1 mile, it's difficult to imagine living closer to it or that the noise levels are even within permitted limits.
