Development Services
WISLOE LIRSON

PROPOSED PLAN.

19th JANUARY 2020

DEAR SIR & MADAM,

I have lived in Slunbridge for over (75) years and my wife nearly as long we have both witnessed some very unpleasant flooding and sewerage problems due to back up of water.

We are both very concerned about drainage issues to the river Can. In the past 450-500 houses to add 1,500 houses with out major drainage and sewer development will be issue, On this issue alone we both say no to this proposal.

(The land at Wisloe)

This has always been prime agricultural land and very productive, a haven for wild life they are going to suffer badly they have already had to move at Box Road development this at Wisloe is so close. There is always going to be a problem for wild life for development we both say this is so wrong another reason to say no.

(Transport)

The roads around Can at peak times are very congested AM-PM, to add more vehicles to the roads and the A38 at Slunbridge and Canbridge would cause real problems.

The Railway station at Box road cannot take any more due to parking problems very much to local people's problems again we both say

NO.
