Dear Councillors

I am writing to let you know that as a local resident I do not support the Council's draft local plan, particularly with regard to the proposed Wisloe development.

Why are so many proposed houses being built on green fields, in a rural location? Why can't the Council build houses on existing brown field sites nearer larger employment areas, rather than proposing to dig up and spoil good quality farming land.

I understand that the land around Wisloe has been classified as grade 2 by Natural England. This is good quality land and therefore not suitable for development.

Please can the draft local plan be re-considered - surely it makes no sense to destroy good quality green field land when there are brown field sites available.

Yours
