Hello, I don't have the time to review all the info online but would like to make the following comment.

Please can you ensure that the infrastructure improvements are put in place before the new homes are built. In particular the road improvements. I live on the A38 at Woodford and already the road is getting so busy that it's dangerous for me to exit my home onto the A38 due to the volume and speed of vehicles. Many mornings there are traffic delays accessing the M5. The roads and footpaths are in poor condition. Broadband is poor. Rubbish is building up in the verges - being thrown from passing vehicles. More residents will only make this situation worse without appropriate infrastructure investments. Local residents should not be further unconvinced while homes are being built. Please sort the infrastructure out first.

Regards,
