Hi I wish to register my objection to the 1500 houses in Winslow.

Firstly the amount of cars will be more than 3000!!..the area is already over congested..very difficult to cross the A38 between Slim bridge and Cambridge already at certain times of the day..also this is a rural area and the vast majority of people who live here want to keep it that way.

Most people are not against small pockets of development like what was built in Wisloe a few years ago (Barton fields) but 1500 houses goes against the wishes of those that live here as it would have a negative impact on the environment..the river cam which is close by has Otters..kingfishers..Dippers and other wildlife living around here.

I believe that the views of us residents should be heard we live here please don't forget...thanks.
