SDC has committed to carbon neutrality by 2030. The proposed Wisloe development would make this unachievable, by increasing domestic and transport emissions and by impacting agricultural land.

A false report has been used to declassify the site and, while SDC has accepted this, no action has been taken to correct the classification. Such correction to ALC Grade 2 would give this land protection from development.

The proposed development on greenfield land along the A38 corridor will have the effect of severely altering the area, changing the nature of Cam and Slimbridge village (Tier 3b) and eroding the separation of one village from the next. This will approach urban sprawl, while Stroud is designated a Rural District.

This site allocation is unnecessary, as the plan provides allocations well in excess of Government guidance. A post-Covid review of housing demand should be undertaken before any further development is permitted.

The location in the south of the District is too far from main employment areas, increasing movement while the Plan's aim should be to reduce travel to and from work. Further strain on the transport system, both public and private, cannot be absorbed without massive investment, which does not form part of the current proposals.

The proposed site will ruin views in and out of the Cotswold and Forest of Dean AONBs in contrast to SDV's commitment to protect these areas and views.

There are no credible proposals to provide the infrastructure necessary for such a huge influx of new residents. Essential funding is not identified. Note the failed Homes England Bid.

Further issues relate to:

- Increased noise pollution
- Reduced air quality
- Increased water pollution
- Exacerbation of drainage issues
- Devastation of wildlife habitats

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
