Good afternoon,

As a 15 year resident of the village who volunteers to serve the beautiful community that I live in, I wish to object to the development of land at WHI102. We are already in the process of having 32 houses built in one development with 2 single properties in the process of being built. And had a small development of approximately 15 houses in School Field Close by the village primary school. It is also not inside the existing development boundary and does not have utilities or infrastructure needed to support 20 houses on a single carriage country lane.

I would also like to strongly object to the development of land at PGP1 for up to 2,250 houses. It will ruin Whitminster as a village. As mentioned above we are already in the process of having 32 houses built in one development with 2 single properties in the process of being built and have a few built in School Field close a few years ago. The village will end up becoming an awful over crowded area similar to that of Kingsway and Hunts Grove. There are other sites in the area that could serve for a development of that size or better still for more smaller sites and villages like Moreton Valence which has not had any development that Im aware of. There are far less antisocial problems in smaller developments than what there are in huge sites as seen in Kingsway.

kind regards
